

CYBERSECURITY LUNCH & LEARN SERIES

Know nothing or very little about cybersecurity? Through a series of five lunches, join us to learn all the necessary cybersecurity tools your organization needs to prevent, detect and respond to a cyber incident. Complimentary lunch with early registration.

JANUARY LUNCH & LEARN

Disaster Prevention & Response Plan | January 15, 2019 | 12:00-1:00PM @ Salt Lake Chamber

Receive a "First-Aid Kit" for preventing a cyber-attack, and responding when one occurs.

Richard Hickman, Eide Bailly LLP

Since 2012, Richard has been providing digital forensic services, including digital forensic examinations, expert witness testimony, incident response, eDiscovery and litigation support to small and large businesses, law firms and law enforcement. This includes examining computers, servers, mobile devices and cloud data, among other duties. When working with Richard, clients can expect a trusted business partner who does everything in his power to provide solutions while also figuring out the most cost-effective way to do so. Richard's vast experience helps him work through his clients to identify all possible sources of data and the best way to approach each individual situation.

Jared Hoskins, Strong Connexions

Jared Hoskins has been a leader in UT for over 15 years through various roles and responsibilities in the telecommunications industry & as a managed security service provider. He has developed attainment across a broad spectrum of industry, and implemented the development of organizations cyber forces and strengthened their cyber defense and cyber deterrence posture. Outstanding combination of acquisition, programmatic and technical leadership expertise, leading requirements definition, specification, procurement, development, integration, fielding, operations and sustainment of complex hardware and software information systems, including Commercial Data Centers, complex unified communication networks that provide multi-agency support.

Aubrey Murray, Perpetual Storage, Inc.

Aubrey Murray is the Executive Vice President of Perpetual Storage, a privately owned and operated maximum security vault facility dedicated to the storage of digital records, microform media and the Granite Cloud datacenter located inside a solid granite mountain along the Wasatch Front. This is Perpetual Storage's 50th year in business and it is one of the most established, cutting-edge and safest off-site storage facilities in the world. Aubrey appeared in March 2018's issue of Utah Business Magazine in the article titled "Cybersecurity and Digital Privacy Roundtable." She has organized 4 cybersecurity summits in Utah before teaming up with the Salt Lake Chamber to chair their 2018 & 2019 cybersecurity conferences. While Aubrey was born in Salt Lake City, she grew up all around the world and finally graduated magna cum laude from New York University.

UPCOMING LUNCH & LEARN EVENTS

Local Case Studies | March 27, 2019 | 8:00AM-12:00PM @ 2019 Cybersecurity Conference

Learn how to avoid being breached through successful case studies from local organizations. These examples will be presented in a breakout session at the 2019 Cybersecurity Conference.
